# California Electric Homes (CalEHP) Incentive Program

## PHOTO GUIDE FOR REQUIRED PRE-REQUISITES

- Each of items shown in this guide is a mandatory requirement for participation in the CalEHP incentive program and **must be installed as specified. No exceptions.**
- **Omission or improper installation** of any of the required items will result in the project being disqualified from the CalEHP incentive program.
- **Disqualified projects will forfeit all program incentives. No exceptions.**

HOMES**

A photograph of a modern multi-story apartment building with light-colored brickwork and glass-enclosed balconies. The building is set against a clear blue sky. In the foreground, there is a landscaped area with green grass, various shrubs, and a large black ceramic pot containing a plant. The entire image is overlaid with a semi-transparent blue filter.

# Electrical Panel Requirements for Electricians

# Segregated Circuits

- **Segregated circuits are required**, meaning interior lighting loads and plug loads must be placed on separate electrical circuits.
- **No single circuit can serve more than one load type**, each circuit must be dedicated solely to either lighting, plug loads, or a single major appliance.
- **Shared circuits across load types are not permitted** and will result in disqualification from the incentive program.
